

Stefan Lutz, PhD., joined Codexis in 2020 as the Senior Vice President of Research to lead the company's research team advancing the discovery of proteins. Prior to his arrival in Redwood City, he was a Professor and Chair of the Chemistry Department at Emory University, having joined the university in 2002 and ascending to Chemistry Department Chair in 2014. Stefan has co-authored more than 70 articles published in peer-reviewed journals and six technical books and journals. He holds six patents and is a frequent lecturer and speaker. Dr. Lutz received a BSc in chemistry/chemical engineering from the Zurich University of Applied Sciences, an MSc in Biotechnology from the University of Teesside and a PhD in chemistry from the University of Florida. He was a postdoctoral fellow at Pennsylvania State University.
